How Shape My Score Can Boost Your Credit Score

Having a good credit score is the secret to attaining financial stability. It makes it easier for you to access loans, enjoy favorable interest rates, and leverage many other financial benefits. However, we all know the difficulty of maintaining a good credit score. In case you are bad at credit management, taking a loan from a bank can become next-to-impossible

thing. That's why Shape My Score is here to help you out in improving your credit score.

Intro to Credit Profile Number

Do you know Credit Profile Numbers (CPN) is a brilliant strategy for credit repair? It appears similar to a Social Security Number (SCN), containing 9-digit numbers. You can use it at the

place of SCN when filing a credit application.

Shape My Score can provide you with the CPN number very easily by assessing some personal details such as name, date of birth, and a unique address. Among them, the most important element is address because your existing home address can't be used.

If you provide your home address, it may lead to the merge of CPN with the established credit on your SSN file. The other information like email, telephone, and employment are all optional but they can be included in your file as a tri-merge method.

While delivering, you will receive a clean and registered credit file with all the 3 credit bureaus. Because it was created recently, it will contain no credit score. You can call it a virgin file. For getting a credit score, it's important to get a secured credit card. Another way is to [buy CPN with tradelines](#) that will piggyback on your file. It will help in getting a credit score and the history of the opened accounts.

What is a tradeline?

After knowing about CPN, the second most significant thing to know about is tradelines. In general, it refers to the user account that displays in your credit report.

The user account will contain creditor information, the company name where they have opened the account, the date on which the account was opened, credit limit, total balance in the account, and the history of payments. If you see any credit lines appearing in the credit report, it will be monitored by the credit reporting agencies during credit score calculation.

Thus, keep in mind to add only authorized user tradelines in your credit report. In the absence of tradelines, improving your credit score will become very difficult. In such a condition, the main user's credit history will go on rent for a fixed amount of time.

You should also note that there will always be two users in the tradeline process with one being the primary user and the second one the authorized one.

How can we help?

Shape My Score team has been helping individuals for 10 years. It's a trusted leader as a tradeline provider with a wide range of user bases spread throughout the world.

The company is offering access to several [CPN packages](#) along with authorized user tradelines to boost your credit score and creditworthiness. The main purpose is to reduce your debt ratio and help you in gaining loans without any hassle.

By following a streamlined approach and utilizing innovative techniques, it curbs the risk involved in tradeline purchases.

Why choose Shape My Score?

Mitigate Risks

Buying tradelines is a risky job especially when you are asked to share some of your confidential information. Many people consider it fraudulent but in reality, it's not if you are buying it from a legit source. It can put you in trouble for identity theft so be careful when choosing a tradeline company.
